

Siamese And All Breed Cat Club Of Ireland

03/06/2026

Karen Kempsell

Thanks to Carmel and the team for inviting me to judge, it made me sort out my passport which had expired. A lovely friendly show and a lot of fun. Thanks again to Annette Howard for stewarding form , your hard work and organisational skills were much appreciated in keeping m on track.

Class S190 Section 3 Hibernian Grand Champion

HIB CH Kehoe's Tara GrCh OSCAR SAMANTE-BOHEMIA (BSH c) M17.04.2022

Good rounded counters to the head, with good width across the top between the ears. Moderately short profile and balanced nose break. Medium to small, well set ears. Round eyes of a good mid golden colour. Bite level, chin slopes away a tiny bit, expression good. Well developed, rounded whisker pads and good width to muzzle. Body type fairly good, with breadth to rump and chest and cobby in the body. He was well grown and mature. Well boned legs ending in strong rounded paws. Tail thick at base, tapers a bit to the tip of a good balancing length. Coat was reasonably short and dense but a bit soft, texture a bit uneven but probably seasonal shedding. The coat colour was a mid to pale frosty lilac with some pinky blush and warmth to it, which was mostly sound, paling very slightly at the roots. A handsome, well grown mature boy with a nice temperament, who handled really well. Had the edge of maturity over the other boy in the class.

RES HIB CH Richardson's, Sup GrCh C-ZEUS ML (BSH b 33) M 12.12.2022

Again, good rounded contours to the head with good breadth across the top. Bite level, chin firm. Small well shaped and rounded ears, a little flared at the base, but otherwise well set. Eyes, fairly well shaped but a bit small and deep set, of a good blue colour. Chin firm, expression a tiny bit closed. Well developed cheeks. Good body type with substance in the body and good breadth to chest and rump. Good boning to legs and round paws. Tail thick and rounded at tip of a good length to balance the body. Coat was nice; short dense and crisp. Coat colour magnolia base with overlaying bitter chocolate points to legs, tail, ears and face. A little hooded in his points on the face and forehead. Another well matured boy, who handled well.

Class S191M Grand 3A Champion Male

GR CH - O'Neill's, Int Ch GOTHAM PAY PER VIEW (BSH a) M 08.07.2021

Nicely rounded counters to the head, with good width across the top between the ears. Bite very slightly under but touching, chin firm. Small well-shaped and set ears. Round well opened and set eyes, of a mid-gold colour. Expression good and open. Nose in profile a bit short, but acceptable. Body type broad in chest and rump and cobby in the body. Well boned, legs, ending in firm round paws. He does stand a little tall on his legs. Tail thick at the base and rounded at the tip, very slight shadow tail

rings, of a good balancing length. Coat is short, reasonably crisp and reasonably dense. Coat colour is a mid blue which is mostly sound. Good overall balance.

RES Gr CH Kirnaja, Ch DIVINEYES MAO OF MITZURO (BSH ny 12) M
03.10.2021

Head type fairly good with reasonable breadth across the cross the top between the ears. He is a bit fine in the muzzle, the nose is a bit narrow and long and the nose break a bit shallow. Cheeks still developing. Bite level, chin slopes away a bit. Small neat, well set ears fitting into the contours of the head. Eyes mostly round, he has a bit of a flat top line to the eye, which are a nice green colour, edged with black liner. Fair body type with some width to chest and rump, he is a bit rangy in the body and he could be a bit bigger overall. Tail thick at the base tapering a bit at the tip. His coat was reasonable, fairly short, with moderate density and with some resilience, but lying a bit flat down the spine-line. Under coat colour pale even-toned gold, tipped lightly and evenly with black. Presented in nice condition, but for his age and stage of development he could be a bit bigger and mature overall.

Also Considered;

Kirnaja's Ch FURRYBLISSLOVE AMARUS (BSH ny 12 33) M 24.03.2024

S191F Grand 3A Champion Female

GR CH - CH Kirnaja's Ch AURUM BLOSSOM DANAYA (BSH ny 12) F
11.09.2022

Good rounded contours to the head, with good width across the top. Ears medium in size, well shaped and set. Balanced short nose length in profile. Bite level, chin slopes away a bit. Eyes round and well set of a good green colour and edged with black liner. Body type fairly good, with some breadth to chest and rump, a little rangy and she could do with a bit more heft and substance. Legs fairly well boned, ending in round paws. Coat was short, fairly dense and crisp. Coat base colour was a warm pale golden apricot showing good contrast to the light, even black tipping. A sweet natured girl who handled well.

Res GR - CH Kehoe's Ch FEDERICA OF LAST HOPE (BSH a) F 04.09.2022

Fairly good rounded contours to the head. Bite level, chin also slopes away a tad. medium sized rounded ears, set a bit upright. Balanced short nose and break. Fairly round well shaped and set eyes of a deep gold colour expression. Body type fair, with reasonable width to rump and chest, but again needing to fill out and have a bit more weight and substance in the body. She could do with being a bit bigger overall. She is a bit rangy and stands tall on her legs. Tail thick at base, tapers a bit to the tip coat texture reasonably crisp with fairly good density and short, coat colour is a mid blue which pales quite significantly at the roots and is quite heavily silver tipped, so

appearing quite banded. Quite a sweet cat but needing considerably more weight and maturity, and her coat colour is very unsound.

S195M British Chocolate Adult Male

1 CC Mckernan's, COCOBROWNIE BOUNTY HUNTER, (BSH b) M 30.05.2025
Head type generally good, rounded contours and good width across top of head. Ears rounded at the tips, fairly well-shaped, slightly flared at base but otherwise well set. Bite level, could do with a bit more chin. Eyes round and well set, of a good gold colour, he is a little heavy browed. Nose short in profile but balanced. Body type reasonably good with breadth to chest and rump and a feel of substance in the body. Tail thick at base and rounded at the tip, of a good length to balance. Coat was short dense and crisp of a good shade of dark chocolate which was mostly sound at the roots his coat overall was very good. A nice lad but he could be a bit bigger and he needs to mature up a bit.

2nd Kirnaja, FURRYBLISSLOVE BOSIK, (BSH b) M 24.11.2024

Fairly good head type, with reasonable width across the top of the head. Bite level, balanced short nose in profile and broad in front aspect. Chin firm, open expression good. Ears medium in size, well shaped and set, also a bit flared at the base. Eyes round, well shaped and set of a pale gold colour, have a slight green rim. Body type fair with reasonable width across chest and rump, a bit rangy in the body at the moment. Tail, thick at base and round it at the tip of a good balancing length. Coat is short reasonably dense and with some feel of resilience. The coat colour is a nice warm shade of chocolate but really quite unsound at the roots. Very sweet temperament and handled very well.

BOB; Kisieliene's HibGrCh GARFIELD OF GERULIS*LT, (BSH b) M 25.05.2017

Round contours to the head, with good width. Small neat, rounded ears, set well into the contours of the head. Short balanced profile, broad nose. Level bite, a little untidy, chin could be a bit stronger. Good maturity in the head with well developed cheeks. Round well set and shaped eyes of a good deep gold colour. Body type good, real breadth to the chest and rump and substance in the body. Tail thick at base and rounded at the tip of a good balancing length. Coat short dense and fairly crisp, of a rich warm toned chocolate which was mostly sound. A well balance mature lad in his prime and had a good temperament, handled well.

S195F British Chocolate Adult Female

1 CC O'Neill's MISCHIEFCUTIES COCO CHANEL, (BSH b) F 06.09.2024
Generally good head, with reasonably good width across the top of head. Bite level, chin firm. Ears medium to small, a little bit flared at base but otherwise well set. Round, well-shaped and set eyes, deep gold in colour, pale very slightly at the centre. Open expression good. Body type fairly good, with some breath to chest and rump and some feel of substance in the body. She really needs to fill out a bit and mature. Legs

could be better boned. Tail thick and rounded, of a good length. Coat reasonable, a little on the long side, and could be considerably denser, but with some feel of resilience. Coat texture was a bit uneven. Coat colour a mid shade of chocolate, which was a bit unsound with some shadow patterning. A sweet girl but a bit rangy still for her age and stage of development

2nd Kisieliene's TIFFANY FORTIUM COR, (BSH b) F 16.07.2025

Reasonably round contours to the head, with good width across the top. Bite level, chin firm. Medium to small well shaped and set ears. Fairly round eyes, set slightly obliquely, deep gold in colour. Expression fairly open. Chest and rump show fair breadth and there is some feel of strength and robustness in the body. Tail thick and rounded of a good length. Coat is short a bit lacking in density and soft. Dark chocolate coat colour which is mostly sound, but has slight brindling down the back, the unsound coat colour was the main reason for her second placing today.

S196M British Cinnamon, Fawn Adult Male

1 CC BOB Cosma's XSILION ADORABLE CAT, (BSH o) M 24.05.2025

Good head type. Bite slightly under but touching, firm chin. Nose break quite deep, nose length short but balanced. Medium to small well shaped and set ears. Eyes reasonably round and well set, mid gold colour. He is very slightly heavy browed but his expression is otherwise OK. Body type is good; he is a good size, with depth to chest and rump and a feel of strength and substance in the body. Tail thick at the base and rounded at the tip, of a good length, Coat short dense and crisp, of a warm tone nice warm cinnamon colour a little unsound at the roots. Sweet shy temperament and handled really well.

S196F British Cinnamon, Fawn Adult Female

1 CC N/A Kirnaja's FURRYBLISSLOVE SABRINA, (BSH p) F 26.01.2025

Her head type is rather angular, her nose a bit long in forward aspect and narrow in forward aspect. Overall her head is lacking strength in the underlying bone structure. Ears are medium to large, fairly nicely shape and set, Eyes are round and a little obliquely set of a mid gold colour. Bite is level, chin slopes away a bit. Forehead a bit heavy and rounded. Muzzle could be rounder and broader, it's a little square. Body type was fair, she was medium in size, with some breadth across the chest and rump, but a bit rangy in the body. Her coat was very uneven in texture and although I think the underlying coat quality was fair in terms of texture and density it was a bit long. That coupled with the fact that the coat lacked preparation gave the coat a very clumped, uneven appearance. There was a lot of dead undercoat in her coat and she really lacked show polish. Her coat colour was actually quite a nice shade of darker fawn. Overall there were just too many faults today to merit a CC.

S197M British Lilac Adult Male

1 CC BOB Kehoe, SKYOTA CANDUIT TOYA, (BSH c) M 14.07.2025

Good head type rounded contours in all aspects and width across the top. Bite level, chin firm. Ears medium in size a bit flared at the base, but nicely shaped and rounded. Nicely shaped round eyes of a deep gold colour. Nice open expression. Good body type; breath to chest and rump and strength and substance in the body. Tail very thick, rounded at the tip and of a good balancing length. Coat is short, reasonably dense but a tiny bit soft. Colour good a pleasing shade of frosty lilac, with some pinky blush to it, a little unsound at the roots and with some silvering evident, particularly around the face and head. A nice boy that I liked a lot

Also considered for BOB: Kehoe's Tara GrCh OSCAR SAMANTE-BOHEMIA, (BSH c) M 17.04.2022

S197F British Lilac Adult Female

1 CC Kisieliene, AMBERKISS XENNA, (BSH c) F 26.05.2024

Good head type, rounded contours in all aspect with good width. Ears well shaped but a bit large and upright. Eyes round slightly bold of a mid gold colour. Bite level, chin firm. whisker pads a bit square. Her expression overall is fairly good, Nice body type, with good breadth to chest and rump and cobbiness in the body. Well boned legs rounded paws. Tail thick and rounded at the tip, of a good length to balance the body. Coat, fairly short a bit lacking in density but crisp to the feel. Coat colour is a good shade of frosty lilac, pales vary slightly at the roots. She is a good size and maturity and deserving of her award today.

S199M British Blue Adult Male

1 CC BOB Hill's ASTRALCHARM BENNY BOOM, (BSH a) M 09.07.2024

Good overall head type with good breadth across the top between the ears. Ears medium in size, a bit flared at the base but otherwise well set. has good cheeks Balanced short nose in profile, nose broad in forward aspect. Eyes round quite large and bold of a pale gold colour. Bite level, chin firm expression fairly good. Very good body type with excellent size, weight and substance in the body. Good breadth in chest and rump. Tail thick at the base and rounded at the tip, good length. Coat is fairly short, with lovely density and crispness. He lacks a tiny bit of density down spine line. His coat is a mid blue colour, pales very slightly at the roots and is a little silvered. Overall he has great type, size and maturity and I liked him a lot.

2nd Kirnaja's FURRYBLISSLOVE BAKS, (BSH a) M 26.04.2024

Reasonably good rounded contours and width across the top of the head. Bite level, chin firm. Nose short of balanced length in profile, but a bit narrow in forward aspect. Ears small and well-shaped but set a bit up right. Eyes round and well set of a deep gold colour. Well-developed cheeks. Fair open expression. Reasonable substance in

the body and breadth to chest and rump, although he could be a bit bigger. Tail thick at the base, tapers a bit to the tip but of a good length. Coat is short, reasonably dense and has some feel of resilience. Coat colour is a mid to dark blue, pales a bit at the roots and quite silver tipped, so rather banded. Overall a composite of minor faults leading to his second place today

Also Considered for BOB;

Liggett's Ch FURRYBLISSLOVE ARCHIP, (BSH a) M 10.05.2022

O'Neill's Int Ch GOTHAM PAY PER VIEW, (BSH a) M 08.07.2021

S199F British Blue Adult Female

1 CC Kisieliene, AMBERKISS FANTA, (BSH a) F 03.06.2025

Head type fair, with reasonable width across the top. Bite level, chin firm. Medium to small, well set rounded ears. Cheeks still developing, she could do with a bit more width and roundness to her muzzle. Nicely rounded and well set eyes, of a deep gold colour. Open expression very good. Body type reasonable with good breadth to chest and rump and some feel of substance in the body. Tail thick at the base and rounded at the tip of a good balancing length. Coat is short dense and crisp. Colour is a mid blue which is reasonably sound at the roots. She is a good weight for her age and stage of maturity, however she is looking for that final polish of maturity to bloom.

Also Considered for BOB;

Keheo's Ch FEDERICA OF LAST HOPE, (BSH a) F 04.09.2022

S200 British Cream Adult

1 CC BOB O'Neill's BOHEME BLAZING SUN, (BSH e) M 29.07.2024

Good head type rounded contours in all aspects. Balanced short profile and nose break, Bite level, chin a bit shallow. Muzzle a tiny bit square, cheeks developing. Ears a bit tall on the head, medium large in size, but fairly well shaped and set. Eyes round a bit obliquely set, of a good deep copper colour. Expression balanced. Good body type, with good breath to chest and rump and cobbiness in the body, Tail thick at base and rounded at the tip of a good length. Good boning to legs and nicely rounded firm paws. Stands a little bit tall on legs. Coat short, dense and crisp but lies a little bit flat down the spine. Coat colour a medium cream, showing slight shadow markings. He is good size overall and had a nice expression and temperament, happy to give his awards today.

S207 British Blue-Cream / Lilac Tortie / Fawn Tortie Adult

1 CC BOB Steele's ASTRALCHARM GLITTER CASCADE, (BSH g) F 10.07.2025

Head type generally good, with rounded contours in all aspects and good width across the top. Bite level, chin firm. Ears small, well shaped and set. Eyes round have a little

bit of a flat top line, mid-gold colour coming, still a bit muddy at the moment. Expression good and open. Her body type is good with broad chest and rump and cobbliness in the body. Tail thick and rounded at the tip of a good length to balance the body. Coat is fairly good; short dense and crisp. Coat colour is mid blue with lights and darker shades of cream. The cream is mostly broken to paws, but it is a bit patchy and unevenly distributed over most of the rest of the body. there could also be a better cream to blue ratio in the coat overall. A sweet girl who handled well.

S217F British Tipped Adult Female

1 CC BOB Kirmaja's IREMOOBR ALMA, (BSH ns 12) F 08.05.2023

Head type is fair, with some roundness to the contours and reasonable width across the top between the ears. Bite is level, chin firm. She could do with a bit more roundness and width to the muzzle. Medium sized, well set and shaped ears. Round, nicely set eyes of a good green colour. Expression open. Her body type is fairly good, with some feel of substance in the body and breadth to chest and rump. She is however a little small for her age and stage of development. Tail thick at the base, tapers a bit to the tip, of a balancing length. Some shadow tail rings. Her coat is a little long, fairly dense and with reasonable crispness. She has a clean silver base coat colour, lightly and evenly tipped with black over most of her body with denser tipping down spine line.

S218M British Colourpointed (inc Cinnamon / Fawn) Adult Male

1 CC Mckernan's IREBABBR ANAKIN, (BSH n 33) M 02.06.2025

Good rounded contours to the head with reasonable width across the top. Bite level, chin firm. Medium to small well shaped and set ears. Eyes round a bit on the bold side, of a good blue colour. Expression fairly good. Body type is reasonable, with some cobbliness to the body, breadth to chest and rump. However, he is a bit rangy and tall on legs at the moment and his head a bit out of balance with his body development. Legs reasonably well boned. Tail thick at base and rounded at the tip, Coat is short and reasonably dense but a bit soft. Coat ground colour is medium warm fawn at the roots, but has quite a bit of tonal shading matching the points colour. Dark seal colour to the face, ears, legs and tail, which is clean and unbrindled. He is a young lad still and needs time to mature and fill out a bit.

BOB; Richardson's Sup GrCh C-ZEUS ML, (BSH b 33) M 12.12.2022

S218F British Colourpointed (inc Cinnamon / Fawn) Adult Female

1 CC Richardson's CELTICMOONPAWS CLEO, (BSH b 33) F 27.02.2025

Head type is a bit angular and could be a bit rounded in all aspects for perfection. Bite slightly under but touching, chin firm. Ears small well shaped and set. Eyes round, well shaped and set of a good blue colour. Open expression is reasonably good. Body

development is fair, but she is quite small and rangy at the moment. Legs could be better boned for perfection. Tail is thick at base but tapers quite a bit and is a bit thin. Her coat is short reasonably dense and with some feel of resilience. Her coat ground colour is clear ivory, with rich chocolate colour of the points to legs, face, ears and tail showing good contrast. Enough positive points to merit her CC today.

S220M British Golden Tipped Adult Male

1 CC N/A Cosma's HAPPY WHISKERS RAMIS, (BSH ay 12) M 01.06.2023
Head type a bit over typed with an exotic look. There is overall roundness but he is very short in the profile and has slight gutters under the eyes. Bite is slightly undershot, chin firm. Ears are small well shaped and set. He has very round large bold eyes, his expression is somewhat over typed. Fairly good body type with breadth to chest and rump and cobbliness in the body, standing low on well boned legs. He is a good size and weight. Tail thick at base and rounded at the tip, on a good balancing length. Coat is a little long and lacking density, with some feel of resilience to the texture, He has a nice warm mushroom-toned undercoat colour, showing good contrast with the pale blue tipping. This was however quite heavy over most of the body. Head type was the main justification for withholding the awards today as it contravenes the current standard of points for nose length.

S272 British Black Silver Tabby Neuter

BOB; Wren's Ch & Sup Tara HibGrPr DELPHINIUM SUMMER-MORNING, (BSH ns 22) FN 10.07.2020

Good head type, with rounded contours and good width across the top between the ears. Short balanced nose in profile. Bite slightly under but touching, chin firm. Well-rounded and set medium small ears, Eyes round, very slightly obliquely set, of a nice hazel colour. Expression open. Body type good with breadth to chest and rump and substance and cobbliness in the body. Tail thick at the base and rounded at the tip, with multiple thick black tail rings evident underneath, solid down the top. Her classic tabby pattern is good with dense black markings on a mid to pale silver ground colour. All elements of the pattern are good with balanced, slightly broken but symmetrical oysters, one complete necklace and leg bars. She is a good size and maturing, a lady in her prime. No problem awarding her BOB today
